

Young Generation & Professional Forum (YG&PF)

Tae (Tom) Oh, KSEA YG Director

Objective

The primary objective of the Young Generation and Professional Forum (YG&PF) is to attract Korean-American undergraduate and graduate students in science and technology and Young Professionals in the Region to offer invaluable networking opportunities with prominent leaders attending UKC 2008 and to provide workshops specially designed for career development to outperform in early years on the job.

Scope

This year's forum focuses on the central role that sustainability plays in the development of society, and how the needs of society impact the direction of sustainability research. The forum will feature speakers and workshops that engage the participants to explore how sustainability build a better environment and world.

- YG&PF participants will attend primarily from the region within a driving distance. Travel reimbursement is intended to cover expenses up to 200 miles. Special consideration will be given to a limited number of YG&PF applicants from Midwest, Southwest and East coast regions.
- All successful applicants must meet the following requirements:
 - A paid member of KSEA for the current term, and
 - Submission of a personal statement about your aspiration in life or current career goals, or
 - Submission of an abstract/poster presentation at UKC 2008 on a technical topic of your choice.
- All scholarship recipients attending UKC2008 are expected to participate.
- Career Development Workshop and Panel Discussion will be open to registered YG, YP and KWISE members.
